

Breaking the Cycle of Criminal Behavior
by keeping teens at home, in school and out of trouble

February 8, 2017

Kara Wright
Mid Plains Center for Behavioral Healthcare Services, Inc.

Dear Kara:

Congratulations! You've won an MST Sustained Excellence award (an ESSY) in the category of Therapist Adherence.

MST Services presents this award on an annual basis to therapists to provide public recognition for adherent implementation of MST. Awards are based on feedback from the families about their experience with MST being provided by the provider organization and are presented to those therapists that rank in the top one percent among their peers.

The recipients of the award must meet several criteria. The therapist must be an active member of a fully-licensed standard MST team at the time of the award, served and discharged a certain number of families during the award year, meet thresholds for TAM-R collection, and percentage of caregivers reporting adherence. Finally, his/her overall average adherence score must be above threshold.

As you know, this recognition is given to therapists within the MST community that have demonstrated outstanding and meritorious service. Your dedication to those you work with and serve is highly-valued.

If you would like to receive a press release for your local newspaper or internal newsletter, please contact Caitlin Ramsey of Trio Solutions at (843) 216-0442 or caitlinr@trio-solutions.com

On behalf of the board of directors of MST Services, we are pleased to present this award. We appreciate your dedication and your continued effort to implement MST with high fidelity. Keep up the good work!

Sincerely,

A handwritten signature in black ink that reads "Michelle A. Dean". The signature is written in a cursive style.

Michelle A. Dean
