

Mid-Plains Center for Behavioral Healthcare Services, Inc. Multi-Systemic Therapy Program Internationally Recognized for Outstanding Service

Grand Island, NE – MST Services, an international leader in the field of serving at-risk youth and families, has honored **Mid-Plains Center for Behavioral Healthcare Services, Inc.** with an international award for their work as a premiere provider of MST services.

MST Services administers the global dissemination of the evidence-based treatment model known as Multi-systemic Therapy, commonly referred to as MST, and presents their “Whatever It Takes” Award each year to individuals and organizations who demonstrate positive outcomes for youth and families undergoing MST. MST is internationally recognized for being one of the world’s most effective treatment models for serious, violent, and continual juvenile offenders.

The “Whatever It Takes” Award is given on an annual basis to an individual or team who has been nominated for their demonstrated creative, out-of-the-box thinking, persistence and dedication to do “whatever it takes” to accomplish positive outcomes for youth and their families. A committee of senior staff members at MST Services independently ranked the nominees based on the information provided in the nomination. The winner was selected from MST service providers in 15 countries, 34 states, and over 2,500 clinicians.

Mid-Plains Center President and CEO Corrie Edwards stated, “Our agency is very humbled to receive this prestigious international award. We take great pride in continuing to provide quality evidenced-based serviced to Central and Eastern Nebraska. It is truly an honor to be internationally selected for this recognition.”

For over 20 years, Mid-Plains Center for Behavioral Healthcare Services, Inc. has offered this intensive family and community based treatment program to improve the lives of youth and their families.
